

LEADERSHIP, COMMUNITY & SELF: MAKING CHANGE NOW

Good morning, ambassadors! We hope you're feeling **OUTSTANDING!**

Yesterday on our visit to the capitol we heard from several community leaders who expressed the impact that their diverse life experiences and unique backgrounds had on the way they work in the community - particularly how their current position may have been unexpected given how they used to see themselves. Others discussed how volunteerism and service inspires their lives as a whole.

In the afternoon you split up to work on a variety of service projects. We hope that you were able to see just how easy it can be to effect change - right now - and why it's important to get into action! Great job getting involved!

Yesterday was very much about community and the exterior. Today, we'll take a dive inside and discover our own leadership styles and strengths and how to apply them in order to make positive change in our own communities.

TODAY'S INSPIRATION:

"Try to be a rainbow in someone's cloud."
-- Maya Angelou
